## ABOUT US

### Letter from the Founder -

In 1996, as a sophomore in college, I built my wife, my mother, and my mother-in-law yard swings for Mother's Day. Others saw them and my wife and I were soon in business using our shed in the back yard as a workshop. As demand and requests for new products grew we had to expand - dramatically. There is one simple idea that has driven our success, governed our philosophy, and created our company culture since the beginning: respond to customer expectations.

It is a simple idea, but it requires our best efforts every single day as it guides everything we do. Our passion to respond to our customers' desires for quality and exceptional value has compelled us on an unyielding quest for improvement. Our commitment to fulfill our customers' rustic furnishing requests has led us to set the standard for product variety and customization of rustic designs. We now offer thousands of products with hundreds of options, flexibility of dimension changes, and a variety of stains for virtually limitless possibilities. We invite you to imagine the possibilities of transforming your home, lodge, restaurant or resort into a rustic oasis with our extensive line of rustic products. We understand far beyond anything an artisan can create lies the craft of bringing out the hidden beauty of nature's creations. Above all else, we hope our efforts will inspire you to realize your rustic aspirations of creating that genuine indoor mountain experience.

President & Founder

## OUR PRODUCTS

**Quality:** We don't cut corners!

**Logs:** We use the highest grade dead-standing aspen that comes from the upper elevations of the Rocky Mountains. As we grade the logs, we hand sort them into natural and gnarly character. The gnarly wood is rare and comes from stands of trees where elk herds had wintered and eaten the bark and rubbed the felt off their antlers against the saplings. As the trees grew these chew marks and antler rubs turned into elaborate gnarly configurations. The distinction of using natural or gnarly aspen logs along with hickory logs create our log style preferences (see pages 8 –13).

**Lumber:** All of our panels are solid wood aspen, no laminates! The lumber we use is kiln dried to moisture content below 8% for optimal quality. As we grade the lumber, we sort it into natural and wild or colorful grain. The distinction of using natural or wild grain lumber in our panels creates our panel style preferences (see pages 8 – 13).

**Hardware:** We are firm believers, "it's what's on the inside that matters." Our drawer boxes are made of solid wood with full dovetail joints. We use undermount full-extension soft close drawer glides and European-style, 6 way adjustable soft close hinges.

**Options:** Each section highlights available options; keep in mind, many of the options can be combined for optimal versatility and functionality.

**Dimension Changes:** Our products come in a wide variety of sizes most of which can be modified to suit your specific needs.

**Finishes:** We offer a variety of stains (see pages 4 – 7). We use a 3 coat process: either a stain or a clear base coat to draw out the natural beauty of the wood grain, a catalyzed vinyl sealer that gets scuffed silky smooth, and a catalyzed conversion coating for the top coat. No other finish on the market holds a candle to the durability, consistency, and feel of the layered catalyzed finishes we use.

## OUR COMMITMENT

**Environment:** Environmental stewardship is very important to us. In harvesting our timber, we work in conjunction with the forest service and private landowners to prevent forest fires, promote new growth and maintain healthy forests in order to help other Colorado industries that rely on beautiful mountain terrain like hiking, camping, hunting, and fishing. We have incorporated solar power to help power our facility. Our excess scrap wood is donated to local schools for wood projects, or mulched and combined with our sawdust for soil composition. We have a state of the art closed loop dust collection system that protects the environment and our employees' health.

**Employees:** No other accomplishment can compare to meeting the highest safety control standards in the industry, because our most important commitment is to the highly dedicated and motivated artisans that work here. We not only regularly meet with staff members to find out what inspires them and how we can improve their employment, but we take seriously our charge to respond to those requests. We offer an apprenticeship program and leadership training for those who wish to make this their career and college scholarships for those wanting to develop other capacities. Past employees have graduated college here at Adams State University on Rustic Log Furniture scholarships and have gone on to become doctors, dentists, pharmacists, bankers, managers and found their own successful businesses. Our success with our staff stems from the same philosophy that has led to our success with our customers: respond to employee expectations. We are proud of their successes and truly wish them the best; because we believe it is a shame that anyone would work simply for a paycheck and not to pursue a dream.

## STAINS

### AGED PINE

As natural pine or aspen furniture ages it darkens to an enriching amber hue. The Aged Pine stain replicates the warm and inviting ambience created by the distinct color tones found in aged furniture.

## STAINS

### PURITAN PINE

The natural color brought out by the sanding of aged aspen logs is a genuinely rustic brown. The Puritan Pine stain replicates the natural color tones of the aspen logs blending the panels into the log trim giving the furniture an authentic rustic feel.

# STAINS

## ENGLISH CHESTNUT

The English Chestnut stain is unmistakably bold and inviting. This stain creates a striking compliment of rustic elegance and distinguishes a designers appeal.

## STAINS

### SPECIAL WALNUT

There are settings when a darker finish is desired to make a distinct impression. The Special Walnut stain adds a hardwood feel creating an engaging flair of rustic refinement.

## FLAT FRONT COLLECTION

### NATURAL PANEL & NATURAL LOG

While this is our most basic collection style, don't let it fool you. Our rustic style begins where others leave off! *Shown with a Corral Bed in Natural Log.*

### WILD PANEL & NATURAL LOG

This style brings out more earthy tones through selecting lumber with more colorful wood grain, further enhancing that genuine rustic feel. *Shown with a Corral Bed in Natural Log.*

## FLAT FRONT COLLECTION

### NATURAL PANEL & GNARLY LOG

This style really brings home that non-replicable rustic feel. It brings out an eye catching contrast giving it a natural two-tone affect. *Shown with a Platform Bed in Gnarly Log.*

### WILD PANEL & GNARLY LOG

This style brings out more earthy tones through selecting lumber with more colorful wood grain for the ultimate rustic feel. *Shown with a Platform Bed in Gnarly Log.*

## LOG FRONT COLLECTION

### NATURAL PANEL & NATURAL LOG

The log front collection adds more natural character and dimension over the flat front collection for those of a more rugged persuasion. *Shown with a Corral Bed in Natural Log with accent rails option.*

### WILD PANEL & NATURAL LOG

This style brings out more earthy tones through selecting lumber with more colorful wood grain that is used in the tops and sides further enhancing that genuine mountain feel. *Shown with a Corral Bed in Natural Log with partial inlay in natural panel and engraved elk options.*

## HICKORY COLLECTION

### NATURAL PANEL & HICKORY LOG

The Hickory collection is of a more classic nature. The natural color tones of the wood grain coupled with the distinct nature of the logs exudes a legendary log feel.

## DINING ROOM TABLES

### DINING TABLE

Our dining table surfaces are made of the highest grade aspen available and reinforced with a medium dense fiber board to ensure a solid and stable surface that will withstand the test of time. They are capped with log trim to tie in that genuine rustic feel.

*42"x 72" Dining Table in Wild Panel & Hickory Log.*

### DINING TABLE WITH COUNTER HEIGHT OPTION

Our counter height option improves the functionality of the table by turning it into a convenient work space and game table; especially with an optional leaf. Wider tables are preferred when applying this option.

*54"x 60" Dining Table in Natural Panel & Natural Log with single expansion leaf and counter height options.*

### DINING TABLE WITH EXPANSION LEAF OPTION

Our most popular feature is our expansion leaf option. This feature keeps things condensed and practical for everyday use, but can open up and be a conversation piece when the guests arrive.

*42"x 60" Dining Table in Wild Panel and Natural Log with expansion leaf option. Shown in English Chestnut stain.*

### PUB TABLES

Our Pub Tables are perfect for nooks and other tight areas; all of our dining tables can be ordered pub height. For our standard pub table features see the Bar and Game Room section.
